ELIGIBILITY AND NATIONAL STATUS OF PLAYERS IN FIBA 3x3 OFFICIAL NATIONAL TEAM COMPETITIONS

26. In order to play for the national team of a country in the senior (Open) category of a FIBA 3x3 Official National Team Competition, a player:
- Must hold the legal nationality of that country; and
 - Must present a passport of that country issued by the competent authorities before the 1 January of the calendar year prior to the relevant FIBA 3x3 Official National Team Competition; and
 - Subject to Special Cases below, may not have previously played for the national team (basketball or 3x3) of another country in a main official competition of FIBA (see article 2-3).

FIBA may waive the requirement of letter b of this article in case of players who have met this requirement at a previous FIBA 3x3 Official Competition or who had their national status confirmed by FIBA pursuant to articles 3-13 et seq. prior to the date mentioned in letter b) of this article.

27. In addition to the requirements set forth in article 6-26 and 6-33, in order to play for the national team of a country in Olympic Games or any qualifier for the Olympic Games, a player must present a passport of that country issued by the competent authorities before 1 January of two (2) calendar years prior to the relevant edition of the Olympic Games.

Other or further eligibility criteria may be established and communicated by circular letter of FIBA following IOC approval.

- Must hold the legal nationality of that country; and
 - Must present a passport of that country issued by the competent authorities before the end of the registration period for the relevant FIBA 3x3 Official National Team Competition; and

For the Youth Olympic Games, other or further eligibility criteria will be established and communicated by circular letter of FIBA following IOC approval.

29. In addition to the mandatory data and documents set forth in the NT Handbook, FIBA may request any data or documents it deems appropriate in order to verify that the requirements of articles 6-26 through 6-28 are met. Subject to articles 6-26 through 6-28, a change of nationality of a player who has already had their national status confirmed shall always enter into effect as of 1 January of the year when such player would be considered eligible for the 3x3 national team of the new National Member Federation (see 6-26). In principle, a player

can request change of nationality only once. The process for eligibility verification is set forth in the NT Handbook.

Special Cases

30. A player who has played for a national team in a main official competition of FIBA (see article 2-3) may not play for a national team of another country. However, in exceptional circumstances and his sole discretion, the Secretary General may authorise such a player to play for the national team of another country provided that there are close links (sporting or otherwise) between the player and this country. In exercising this discretion, the Secretary General shall take into account, amongst other possible considerations, whether such authorisation is in the interest of the development of basketball in this country.

Before making his decision, the Secretary General shall consult with both National Member Federations and the player involved.

Decisions by the Secretary General on special cases may be subject to the payment of an administrative fee of up to CHF 20,000.

A national team participating in a FIBA 3x3 Official National Team Competition may have only one (1) player authorised under this article.

Young Players

31. For the avoidance of doubt, a player who has transferred as a young player according to article 3-76 or 3-77 of these Internal Regulations (transfer linked to basketball) may not choose to play for the national team of any country in a FIBA 3x3 Official National Team Competition other than the country from which the player transferred, until the player has reached the age of twenty-three (23).

Special provisions for city states or dependent territories

32. To the extent that FIBA or its Regional Offices have enacted special eligibility provisions for players from city states or dependent territories, those provisions shall apply also to FIBA 3x3 Official National Team Competitions.

34. To calculate the age limit corresponding to the respective underage FIBA 3x3 Official National Team Competition, the following procedure is used: the age limit of the competition must be subtracted from the year in which the competition takes place with the understanding that this year begins on 1 January.

Other Eligibility Criteria

35. Players must be registered in play.fiba3x3.com with a confirmed FIBA 3x3 Profile.
36. For the Olympic Games and its qualifiers, as well as for the FIBA 3x3 World Cup:

Two (2) of the players from the Event Roster shall be within the country's top ranked, eligible, and verified players in the applicable gender category of the FIBA 3x3 Individual World Ranking one (1) day (at 1200 UTC) before the start of player registration to the relevant competition. For the purpose of this article, the list of top ranked players shall be of sufficient number to include the top 10 players who have not participated in the FIBA 3x3 Youth Nations League in the previous calendar year.

The player shall be available at least for a release period starting one hundred and twenty (120) hours before the beginning of the first game and ending twenty-four (24) hours after the end of the last game of the relevant FIBA 3x3 Official National Team Competition.

39. National Member Federations that wish to participate in FIBA 3x3 Official National Team Competitions and the Olympic Games/Youth Olympic Games (as communicated by circular letter of FIBA following IOC approval), must confirm the registration of their team(s) on the FIBA 3x3 Digital Platform within thirty (30) days following FIBA's invitation to register, unless otherwise specified in the invitation. Upon expiry of the registration deadline, the registration of a team that

- a. was confirmed by the National Member Federation becomes legally binding;
- b. was not confirmed by the National Member Federation is deemed withdrawn and FIBA may elect a substitute team in its discretion.

40. Except for the FIBA 3x3 Champions Cup (see article 6-41), National Member Federations that have confirmed the participation of their team(s) in a FIBA 3x3 Official National Team Competition and cancel their participation after the confirmation became legally binding or fail to appear at the opening of the given competition, will be sanctioned as follows:

- a. Automatic ineligibility to participate in the next edition of the same FIBA 3x3 National Team Competition, regardless of the fault or negligence of the National Member Federation.
- b. A monetary fine, which shall be determined depending on the fault or negligence of the National Member Federation, as follows:

World Cup & Zone Cup & Olympic Qualifier	Up to CHF 100,000
FIBA 3x3 Youth Nations League	Up to CHF 80,000

* in the case where Qualifiers are played back-to-back with the corresponding Cup, the maximum fine applies.

Additionally, a ban from participating in any FIBA 3x3 National Team Competition, in any case not exceeding one (1) Olympic cycle may be imposed by the Secretary General.

41. a. National Member Federations that earn a qualification slot for the FIBA 3x3 Champions Cup but fail to confirm the participation of their team(s) will automatically be ineligible to participate in the next two (2) editions of the FIBA 3x3 Champions Cup in that gender category, regardless of any fault or negligence on their part.

b. In addition to the consequences set out in paragraph a. above, National Member Federations that have confirmed the participation of their team(s) for the FIBA 3x3 Champions Cup and, after the confirmation became legally binding, do not participate for any reason whatsoever, will be subject to a monetary fine.

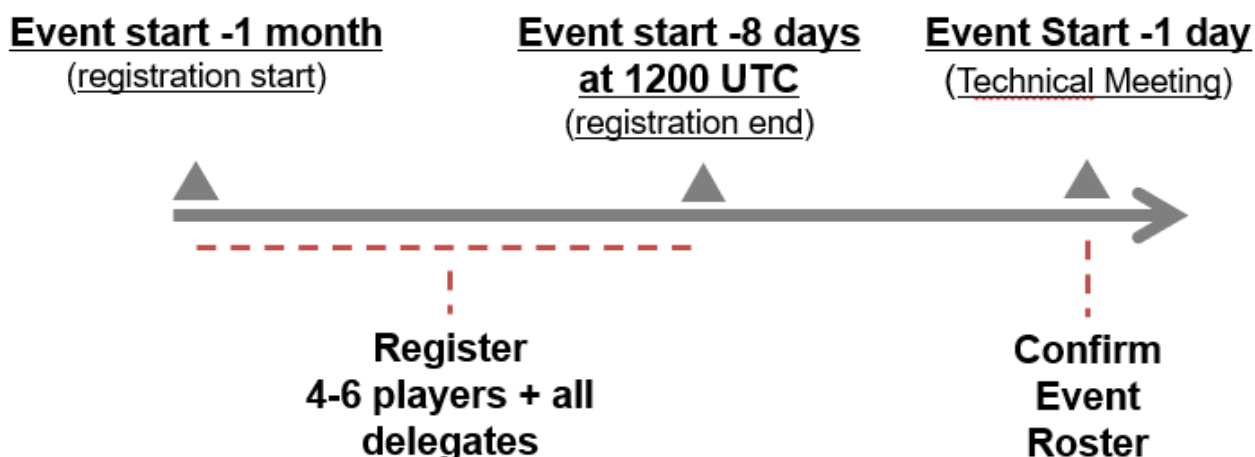

42. Other or additional registration requirements may be enacted by FIBA in the special competition provisions of these Internal Regulations or in competition-specific documentation (e.g. the NT Handbook, manual).

REGISTRATION OF PLAYERS AND DELEGATES IN FIBA 3x3 OFFICIAL NATIONAL TEAM COMPETITIONS

43. Players and delegates must be registered by their National Member Federation in the FIBA 3x3 Digital Platform.
44. In principle, player and delegate registration opens one (1) month prior to the event and closes one (1) week prior to the event (see Diagram 3). As an exception, player registration for the FIBA U23 World Cup and the FIBA 3x3 Youth Nations League follows the timelines set forth in the NT Handbook.

Diagram 3:

Player registration deadlines

FIBA may amend by circular letter to the National Member Federations the above registration deadlines.

45. National Member Federations must register four (4) players per team for each competition. National Member Federations may only register players whose eligibility has already been verified by FIBA (see article 6-29).

The FIBA 3x3 Youth Nations League allows for an extended roster of six (6) players, meaning that in a given FIBA 3x3 Youth Nations League tournament the team roster is made up of four (4) players, but up to six (6) different players can be called during the entire FIBA 3x3 Youth Nations League competition.

[Note: FIBA recommends National Member Federations to maintain a pool of at least ten (10) potential national team players].

National Member Federations are entitled to register an additional player who will participate in the Dunk Contest only, as per article 6-55 below.

46. National Member Federations should nominate two (2) eligible potential substitutes until one (1) week prior to competition start. For the FIBA 3x3 World Cup and related qualifiers in the Open category, those substitutes shall be selected from within the country's top 10 ranked and eligible players in the applicable gender. After the lapse of this deadline, no other potential substitutes can be nominated.
47. National Member Federations may substitute until the technical meeting up to two (2) players of the team roster with any of the two (2) substitutes nominated in accordance with the process of article 6-46 above. After the closing of the technical meeting no more roster changes are possible.
48. National Member Federations that fail to register four (4) players per team prior to the closing of registration shall lose their participation right, may be replaced through a decision of FIBA by a substitute team and will be sanctioned with a monetary fine as set forth in article 6-40. Additionally, a ban from participating in any FIBA 3x3 National Team Competition for a period of time not exceeding one (1) Olympic cycle may be imposed by the Secretary General.

TECHNICAL MEETING

49. Attendance at the technical meeting is mandatory. Unless otherwise decided by FIBA, the technical meeting shall comply with the following procedure and take place in the evening prior to competition start.
50. Every participating National Member Federation must be represented by at least one (1) English speaking team representative.

POOL SEEDING

52. In all FIBA 3x3 National Team Competitions, teams are seeded into pools according to the rank of the National Member Federation in the respective category of the FIBA 3x3 Federation Ranking, as per diagram 4, unless FIBA decides otherwise. Special rules may be enacted for Olympic Games, Youth Olympic Games, Olympic Qualifying Tournaments, and the FIBA 3x3 Youth Nations League.

Diagram 4:

Pool seeding methodology table

Pool A	Pool B	Pool C	Pool D
Team 1 (highest rank)	Team 2 (2 nd highest rank)	Team 3 (3 rd highest rank)	Team 4 (4 th highest rank)

Diagram 4 illustrates the pool seeding methodology. It shows a table with four columns representing Pools A, B, C, and D. The rows represent teams based on their rank. Team 1 (highest rank) is in Pool A, Team 2 (2nd highest rank) is in Pool B, Team 3 (3rd highest rank) is in Pool C, and Team 4 (4th highest rank) is in Pool D. Team 5 (5th highest rank) is in Pool D, and Team n (lowest rank) is in Pool A. Dashed arrows indicate the seeding process: a vertical arrow points down from Team 1 to Team n in Pool A; a horizontal arrow points from Team 1 to Team 2 in Pool B; a horizontal arrow points from Team 2 to Team 3 in Pool C; a horizontal arrow points from Team 3 to Team 4 in Pool D; a horizontal arrow points from Team 4 to Team 5 in Pool D; and a horizontal arrow points from Team 5 to Team n in Pool A.

DUNK CONTESTS

53. The Dunk Contest shall be held only at FIBA 3x3 World Cups in the Open Category. The format of the Dunk Contest is regulated in the NT Handbook.
54. In each Dunk Contest one (1) gold medal, one (1) silver medal and one (1) bronze medal shall be awarded.
55. Every participating National Member Federation may register one (1) male player for the Dunk Contest in FIBA 3x3 World Cups in Open category. Said player may be registered in addition to the team roster of four (4) players but may participate only in the Dunk Contest. In such case, the additional player's National Member Federation must cover full-board accommodation for him during his stay. Further, any player who has won a Dunk Contest at a FIBA 3x3 World Tour event during the season preceding the FIBA 3x3 World Cup in question may be invited by FIBA to take part in the Dunk Contest of said FIBA 3x3 Word Cup. Such invitation will not impact a National Member Federation's quota of a maximum of four (4) players plus an optional player participating in the Dunk Contest. Every player participating in the Dunk Contest shall wear his National Member Federation's national team uniform. In case the National Member Federation does not allow the player to wear the National Team Uniform in the Dunk Contest, FIBA may allow the player to participate with a neutral uniform under the FIBA flag.

NATIONAL TEAM UNIFORMS

56. The national team uniforms must comply with the regulations on team uniforms in FIBA Official Competitions, as set forth in Book 2 of these Internal Regulations (as applicable) and the provisions on national team uniforms in the NT Handbook, in addition to the relevant provisions in this Book 6.
57. The FIBA 3x3 "infinity" logo (see Diagram 2) may not be displayed on national team jerseys except if the team wears apparel of FIBA's Global Partner. In any case, the FIBA 3x3 Branding Guidelines have to be followed.

58. Each team must bring two sets of jerseys – one (1) set of light colour and one (1) set of dark colour.
59. Players may not change their jersey number during the competition, irrespective of dark or light jersey. Players must wear the jersey number confirmed in the technical meeting.
