**BASKETBALL
FOR GOOD**

To celebrate that the United Nations has proclaimed 21st December 2023 the first ever “World Basketball Day”, we launched our 7th FIBA Photo Contest on this day!

The theme selected was “**Basketball For Good**” to honor our sport’s power to transcend borders, cultures, capabilities and languages.

It serves as an educational tool, a common playground where people from different backgrounds can come together, bond and communicate with each other, creating connections, promoting values, breaking down barriers, and thereby contributing to peace and well-being.

Each picture represents how, using **Basketball For Good**, we can help to make this world a better place.
